And What Have You

By BOB CRAIG

Well, the Pipers missed another close one Friday over at Clyde—they didn't win but they didn't lose either. This was at least a step in the right direction and if they can just get a little stronger each week, they could still be strong contenders when it comes time to start district play.

The boys are still making a lot of mistakes, but let's hope that with this week off they will be able to work on some of the finer points of their game and eliminate these mistakes.

What with Colorado City knocking off Coahoma last Friday it appears that the competition just keeps getting stronger every week.

Just keep backing the Pipers the way you have and they will come through in good shape.

After the game at Clyde the other night, Barbara, Rick and I went down to Arlington to visit our daughter, Beth. Saturday night we found out that there were still plenty of tickets to the Cowboy-Eagle season opener in Texas Stadium Sunday.

So, Rick and I got up Sunday and made the trip over to the Stadium and took in our first professional ballgame. The driving to and from the stadium is not bad, but the walk from the parking lot to the stadium is something else.

Don't know if I would want to fight the hassle every Sunday or not, but it is worth all of the time, trouble and money just to see the stadium if you have not been there before.

If you watched the game on television, you know that the first half was not much of a game but the Cowboys did come around in the second half and play better ball. As I had heard, the scoreboard is just about worth the price of admission in itself.

Over the years I have thought that high school fans were getting worse all the time hollering at the officials, coaches and players, but they still have a long way to go to match the pro-football fans.

I am not too sure that I would want to be in the stadium when the Cowboys lose a game. They were bad enough with them winning.

But I guess when you charge a fan \$2.00 to park his car and then make him walk a mile or two to the stadium, charge him \$7.00 to get a seat and then make him climb to the top of a five or six story building he is in no mood for anything but a perfect performance from his team.

SCHOOL ISN'T WHAT IT USED TO BE — These boys are attending class at Hamlin Junior High School in the new vocational education program initiated this year. They are shown as they prepare their classroom and shop for occupancy. The building was smoke damaged in a fire several years ago and is being fixed up for the special class. From left are, David Turner, Ricky Perry, Alvin Conner, Stanley Jones, Delbert Thompson (on ladder), Joe Hernandez, Curtis White, Thomas Gonzalez (on ladder), Charles Brown (under ladder), Joe Silvas, Ronald H. Ferguson (teacher) and Ricky Furr. Not pictured is Roy Spalding. (staff photo)

School System Launches New Vocational Program

A new vocational education program is being initiated in Hamlin Public Schools this year for a limited number of boys in the seventh, eighth, ninth and tenth grades.

The Coordinated Vocational Academic Education (CVAE) is being taught by Ronald H. Ferguson, who moved here when school opened from Presidio.

The students chosen for the course are limited to 15 in each class. One class is made up of seventh and eighth grade students and the other class is composed of freshmen and sophomores.

All class members are eligible to belong to a club sponsored by Vocational Opportunity Clubs of Texas. The members will have their own jackets and emblems.

The class and club will meet in the old vocational agriculture building at the junior high school campus. The boys are presently remodeling the rooms which were heavily smoked by a fire several years ago.

Bids for tools have been requested and when these are

received the class will begin training in the six phases of the vocational course.

The local training program is a General Construction Trades Cluster which includes plumbing, carpentry, electrical wiring, masonry, cement finishing and painting.

Only two other such programs are being initiated in Area I this year, one in Sweetwater and one in Merkel. The local program is under the supervision of Ed Shives of Big Spring, Area I, Texas Education Agency. Area I extends as far south as San Angelo and west to El Paso.

Objectives of the program are to provide eligible students with a Coordinated Vocational-Academic curriculum that departs from traditional methods of teaching at a level where they can be successfully prepared to enter gainful employment in jobs requiring semi-skilled knowledge and training and or enter regular high school vocational education programs.

The course is a pre-employment laboratory program. Students are scheduled for shop instruction two consecutive class periods each school day and are enrolled in modified academic courses the remaining portion of the school day. Students will

have classes in English, math and science related to the trades field.

Teachers for the course are selected from trade fields or may be qualified through college education. Ferguson was attending Sul Ross University in Alpine when he was requested to apply. He worked in a similar program in Presidio during the past year.

After the students have gained sufficient skill and knowledge of various operations through laboratory experiences, plans are for them to be assigned real or "live" jobs provided by patrons of the school.

Ferguson said that he anticipates this phase of the program to be done during the spring. Materials will be paid for by the person getting the work done. No charge is made for the labor but donations to the club will be appreciated, he said.

An advisory board made up of local members is representative of each of the skills being taught. On the board are Robert Cary Sr., plumber and retired City employee; Ellis E. West, water superintendent, concrete work; Ernest Williams, electrician; Mrs. Delton Jackson, painter and O. L. Cooper, builder and carpenter.

Registrations Coming In For HHS Homecoming

The response from the mailing of letters to former students and teachers of Hamlin Public Schools has been very good, says Mrs. Robert Fowler, who is in charge of publicity for the 18th annual Homecoming sponsored by the Hamlin Ex-student Association.

Registrations are being returned in good numbers, she said. The Homecoming will be Oct. 6 and 7.

All businesses are being urged to participate in the Homecoming Parade at 11 a.m. on Oct. 7. Entries should be

turned in to Mrs. L. C. Bonds at the Board of Community Development office, which will be Homecoming headquarters. Mr. and Mrs. Delton Jackson are chairmen of the parade.

Other chairmen who have been named by O. H. Weaver Jr., president, include Mr. and Mrs. Ed Lewis, chili supper, Oct. 6; Mr. and Mrs. John Ferguson Jr., after game coffee, Oct. 6; Mr. and Mrs. Larry McCoy, placing Piper flags at business houses; and Mrs. Buddy Lawlis, Piper Float for little Pipers.

Council Studies Problem of Dogs

What to do about the dog problem in Hamlin was a big question facing the Hamlin City Council in their regular monthly meeting here Monday night. The problem, one that has been discussed by the council at various times over the years, was brought to a head recently when a young Hamlin girl was badly bitten by a dog.

During the discussion, it was pointed out that both the Police Department and the members of the council have received

numerous complaints about all of the stray dogs that run in packs around town.

It was pointed out that the city has a dog ordinance on the books but that it has not been enforced in a number of years

Flea Market Planned Here For Sept. 30

Another Big Downtown Flea Market is being planned for Saturday, Sept. 30, by the Hamlin Retail Trade Committee of the BCD, according to Frank Shearer, chairman of the project.

As in the past, the public is invited to bring all of their items they wish to sell to town that day and take part in the big Garage Sale.

Local merchants are expected to join in the activities with a big fall Sidewalk Sale.

Oak Grove Dinner Sat.

The Sunday School of Oak Grove Baptist Church will serve a dinner Saturday beginning at 6:30 p.m. and the public is invited. Plates are \$1.50 each.

The menu will include roast beef, black eyed peas, fried okra, buttered potatoes, Waldorf salad, Louberta's hot rolls, pie and iced tea.

and that it needs to be brought up to date and enforced.

The council asked Police Chief Ed Wheat to look into what would be needed to set up a dog pound so that the dogs could be picked up and held the required number of days to be claimed. If not claimed the dogs would then be destroyed.

In another problem that has been before the council before, the city fathers are looking into a solution to the traffic problem on West Lake Drive. It was pointed out that the city either needs to stop the four lane use of the two lane highway or have it stripped for four lanes and eliminate on street parking. The street is not wide enough for four lanes and two lanes of parking.

Present thinking of the council seems to be to cut the traffic back to two lanes rather than eliminate the parking. The matter is being studied and no action was taken at the meeting Monday evening.

To Repair Yule Toys

The Hamlin Volunteer Fire Department will repair toys again this year, a spokesman for the group announced this week.

The toys will be given to children of needy families at Christmas.

Toys may be left in the back part of the fire station or a fireman may be called if the donor wants someone to pick them up.

Pipers Take Week Off—

Jr. Varsity, Freshmen Play At Rotan Tonight

Still looking for their first win of the young season, the Pied Pipers will take this Friday night off as they prepare for Class AAA opponent Colorado City the following week. The Pipers had to settle for a 6-6 tie with the Clyde Bulldogs last week to give them an 0-1-1 record after two weeks of play.

Colorado City defeated a strong Coahoma team last Friday, 27-18 and take on Ballinger this week.

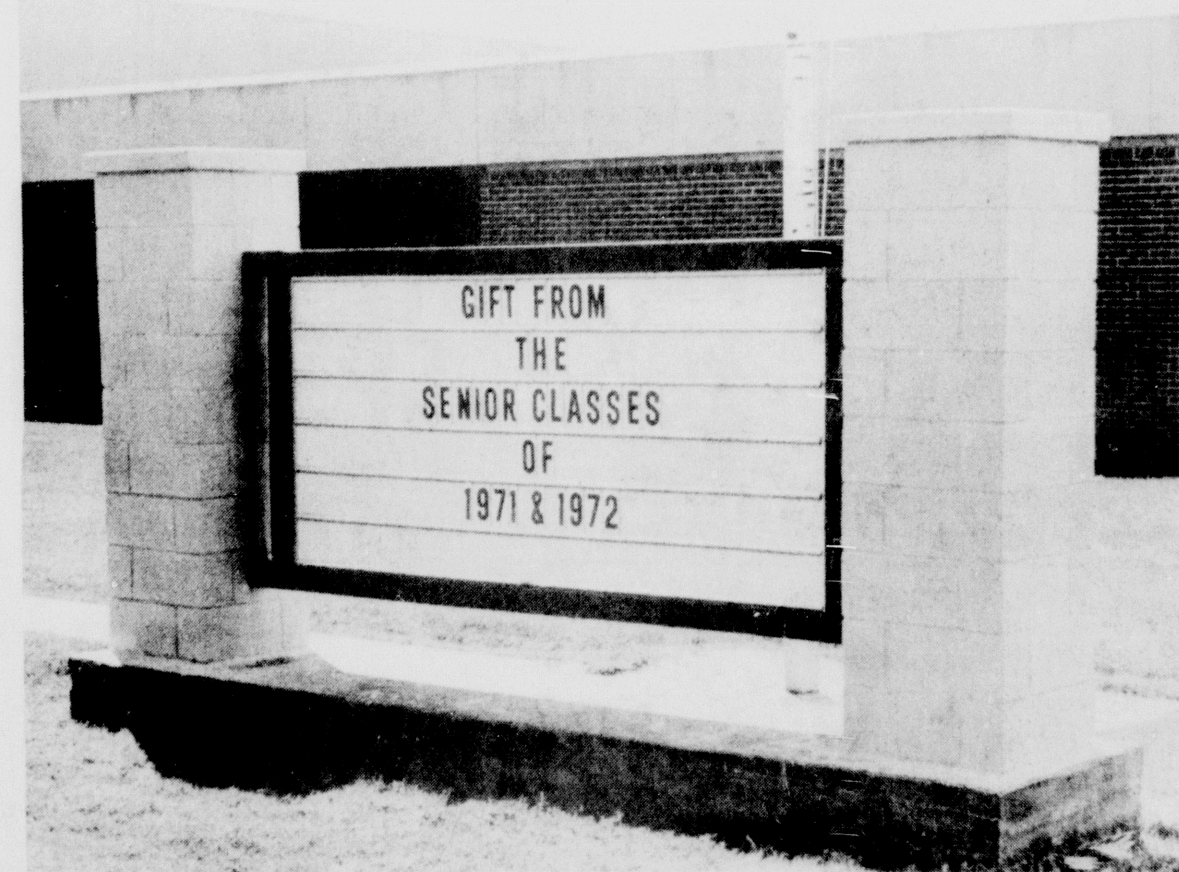

Tonight (Thursday) the Piper Freshmen and Junior Varsity teams open their season at Rotan with the Freshmen playing at 5:30 and the JV's playing at 7:30.

Tuesday, the Junior High teams will travel to Sweetwater for two games with the first one starting at 5:30.

In other 6-AA action last Friday night the Haskell Indians rolled over Seymour, 53-0; Stamford whipped

Breckenridge, 18-6; Winters won over Merkel, 35-0; and Ballinger battled Reagan County to a scoreless tie. Anson lost to Rotan, 14-7, in the district's only loss of the night.

With the Pipers idle Friday night there will still be lots of action in the area for football fans with Clyde at Stamford, Albany at Anson, Colorado City at Ballinger, Coleman at Winters, and Breckenridge at Haskell.

AT HIGH SCHOOL — Work on a new sign at Hamlin High School was completed this week. The sign, which advertises coming events at the school, is a gift from the Senior Classes of 1971 and 1972. The two classes donated about \$500 for the project and the balance of the money needed to complete the installation was paid for out of a special activity fund, according to B. V. Newberry, principal.

Now! the Craftsman, Custom
Look at Low, Budget-Wise Prices,
Thanks to Re-Cycling and New
Furniture Manufacturing Methods

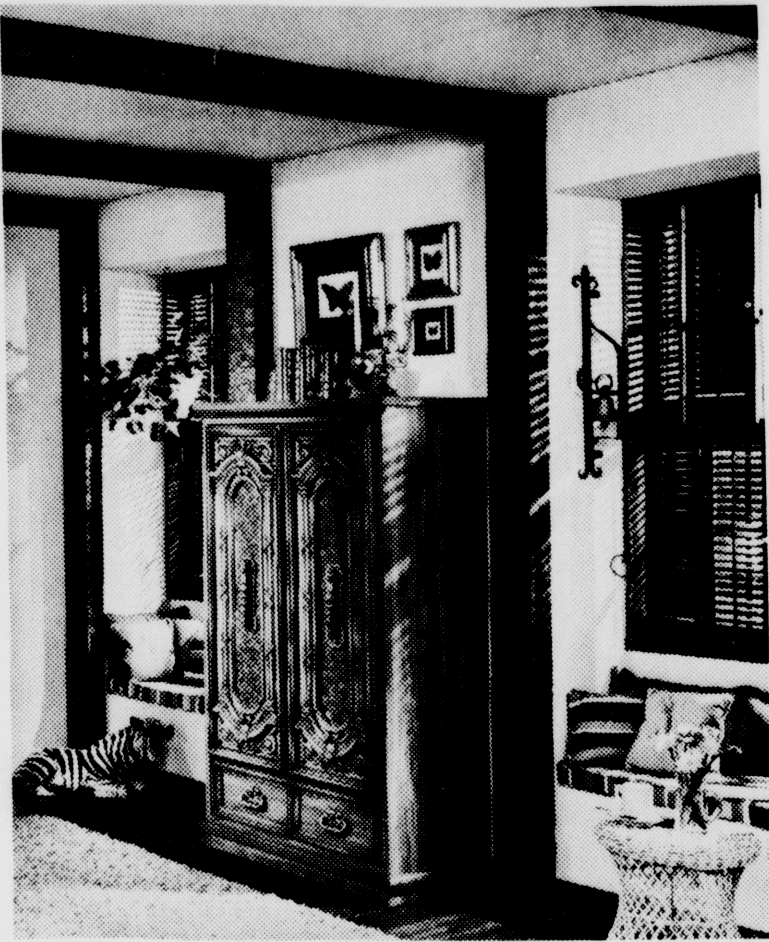

Low budgets can often dash high hopes when it comes to buying new furniture. But there are some exciting things going on in furniture-making which are helping to cut costs so that you can still have the best of both worlds.

One of the new money-saving developments is the re-cycling idea. Wood, like the craftsman, is fast becoming one of the world's disappearing resources. But new ideas developed by Sierra Permaneer Furniture for their factories across the country have resulted in low-priced furniture that still looks elegantly traditional — without using one single tree!

First of all, the veneer surface which is wipe-clean vinyl, with the look of a fine wood grain, is laminated on top of re-cycled wood that has been fused and strengthened into an almost indestructible panel.

Then comes another idea which is helping to cut costs. Newly-developed machinery grooves and bends the panel into shapes so that there are no pieces to be joined together. Chests, dressers, armoires, consoles and tables can be made much faster, and be even stronger.

The intricately "carved" decoration on door and drawer fronts that gives the furniture its opulent

SO HANDSOME, YET BUDGET-PRICED, this armoire provides much-needed storage space. Because it's made from re-cycled wood and plastic materials using new cost-saving methods, it's a decorator buy. From Sierra Permaneer Furniture, it never needs polishing and the finish will never show marks or stains.

Mediterranean or traditional look is actually made in one piece from molded plastic materials finished to match fine wood effects. This is not only a way to provide a rich look at less expense to the customer, it is even a better idea in the

long run because it won't warp.

All this means a drastic break with old-fashioned furniture-making techniques yet it's difficult to detect the differences in the end result. The only place you'll notice it is in the pocket book!

And did you know that by keeping light bulbs clean you gain as much as 30 percent more light? It's true.

The Hubbards, Freddie, Ann and their two-year-old son, Murray, have recently moved to Hamlin from Sweetwater. Freddie is a graduate of Tarleton College at Stephenville and is now employed by Texaco. The Hubbards are at home at 624 N. W. Ave. H. I'm sure everyone will want to make a special effort to welcome them.

A problem here in Hamlin has been brought to my attention. Mothers or Fathers are really needed to help with the Boy Scout and Cub Scout Activities. Shame on you if you have no real excuse for turning your back on youngsters who need you. Some day you may find yourself asking, "Where did I go wrong."

Mrs. J. C. Riddle has been helping out in the Merle Norman shop here in Hamlin while Mrs. Fowler has been absent.

The High School cheerleaders are really doing a great job this year and have called something to my attention. They noticed that a lot of people have gotten up in the middle of the fourth quarter to leave the game. Whether you realize it or not the players notice this and it can really be a show of not caring if they finish the game or not. A football game consists of four quarters, not three and a half. Unless it is absolutely necessary, please support your team until they have given their best down to the last second possible.

A lot of families from Hamlin have been to the West Texas Fair during the week, all have reported a very good time.

Some guests took their golf clubs and fishing equipment or just visited with guests from the surrounding area. Mr. and Mrs. Shivers met their son, Jimmy, and his family there and spent the night at the camp in the cabins.

If you saw the game on tv you know that Bob Hayes had a bad day. A lady sitting near me told her husband, when all of the booing started, that maybe he is just having an off day.

He told her in no uncertain terms that, "H--, when he gets paid \$75,000 a year he can't have an off day."

The one thing I found out from this trip to the game was that a parking chip would be worth more than a ticket to the game. Don't know where or how you get the chips, but if you have a blue chip you can park next to the stadium, if you have a red chip you still are not too far away, but if you park in the public parking lots you have a heck of a long walk ahead of you.

Neinda Philosopher Takes Time to Discuss Problem of People's Vandalism

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses human nature this week, we think.

Dear editor:
There was this farmer, according to an article I read in a newspaper last night, who had trouble with his mail box. Somebody was always knocking it down or shooting holes in it or smashing it with a hammer and after he had replaced it 20 times — that's right, 20 times — he finally took action.

What he did was take it home with him every day. About an hour before the mail carrier was due he'd take it down and set it up, then when the mail carrier came he'd pick up his mail, mail box, and all and return to his house.

In this connection I read in the same paper that the telephone company reported that 11,000 pay phones in this country are put out of commission every day by people trying to rob the coin box or just ripping out the phone for the fun of it.

Clearly, what the phone company people ought to do is pick up their phone booths every night and take them home with them.

In this day and age, which is pretty much like every other day and age since man arrived, you don't solve problems by

getting at the root cause, you dodge them, you out-last them; if you can't outlast them you build an overpass over them; if that doesn't work reroute the highway entirely or double-deck it.

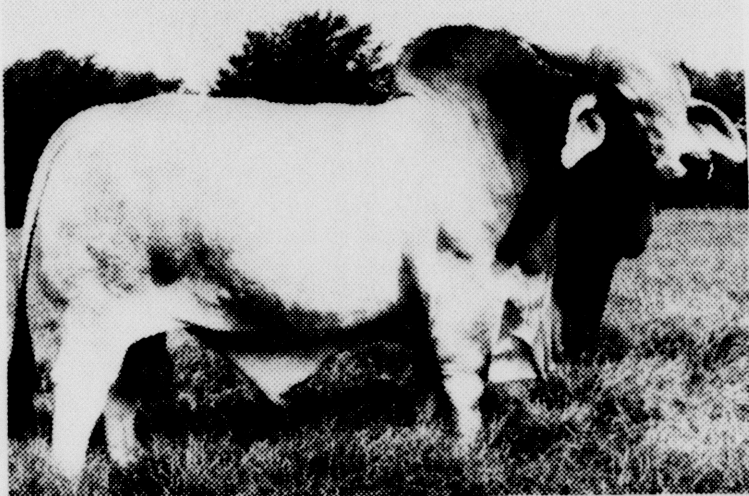

If that doesn't work, come out against high taxes.

Vandalism, like bad colds, is just something there doesn't seem to be an answer to. And that farmer and the phone company ought to remember that it happens in lots of places, for example, in the

headquarters of the Democratic National Committee in the Watergate building in Washington.

I have been reading about this bugging case and as un-called-for as it was, I still don't understand it. What did those guys expect to learn? Both national conventions had microphones planted all over the place and the networks broadcast the activities to the world, but I still didn't learn very much.

Yours faithfully,
J. A.

PROGRESS

Progress is on the march. There is a great boom in building. Cures are being found for maladies that have killed mankind for centuries. Industry is doing magnificent things. But what sort of progress is being made in human relations—this term that includes respect for the person and property of others and good will among men.

There is one agency striving for progress in this field. This agency is the church. At the birth of Jesus Christ, the following prophesy and promise was given to mankind by a host of angels: "Glory to God in the Highest Heaven! Peace upon earth among men of goodwill!" Luke 2:14. (Phillips translation). Only when the majority of men on earth are men of goodwill, will we have peace.

Attend church this week and align yourself with the forces of God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

NEWS FROM ...
Sylvester
by Mrs. R. M. Babb

Cloudy and we had .85 in. of rain last week. Really, I think we could use some dry warm weather at the present time. Cotton is really beginning to open.

Mr. and Mrs. Chester Cooper of California visited this past week in the home of Mrs.

Cooper's parents, Mr. and Mrs. Paul Stephens. They also visited his brother in Stamford who had a serious accident recently.

Ernest Kiser has been spending some time in the John Tankersly home in Ft. Worth. Our sympathy goes to the Kay Jones family. Their grandson whom they raised here was killed in Lubbock last week.

Mrs. Floy Douglass of Llano visited in the Ross Douglass home over the weekend. Mrs. Douglass is Ross's mother.

Many of our citizens attended the West Texas Fair and really enjoyed it.

Sorry, news is very scarce and I will call it a day this time, by the way did you smile and say "Hello" to some one today?

The W. B. Browns enjoyed the Sunday afternoon in Sweetwater in the Prather home.

The Jennings family of Avoca visited in the Milton Jennings home over Sunday.

Debbie Douglass of Abilene spent Sunday with her parents, the Alfred Douglasses.

C. A. Jenkins In H-SU Group

C. A. Jenkins, junior student of Hamlin, has been chosen as a new member of the Hardin-Simmons University Chorale for the fall of 1972.

James D. Cram, head of the department of Applied Music at H-SU made the announcement of members recently.

Pied Pipers Battle Clyde To A 6-6 Deadlock Friday

The Pied Pipers and the Clyde Bulldogs battled to a 6-6 tie in Bulldog stadium Friday evening with both teams still looking for their first win of the season. Both teams are now 0-1-1.

The Pipers scored early in the contest on a 19-yard drive set up by a Clyde fumble. It took the Pipers seven plays to reach the goal line with fullback Albert McAfee scoring from the one. Halfback Johnny Jones tried to add the two-pointer but was stopped short of the goal line. Clyde tied the game up late in the third period on a 15-yard scoring drive, which was also set up by a recovered fumble. It took the Bulldogs five plays to score, along with two Hamlin penalties. Fullback Gary Barr carried in for the final yard and the score. The Clyde kick for the point after was blocked.

Both teams were victims of offensive mistakes as the Pipers lost the ball three times on fumbles and twice on pass interceptions. The Bulldogs lost two fumbles and gave up the ball once on a pass interception.

Top ground gainer for the night was Johnny Jones with 17 carries for 110 yards, he was followed by Clyde's Gary Barr with 12 carries for 73 yards.

Hamlin took the opening kickoff with McAfee returning it 11 yards to the Hamlin 46. Johnny ripped off 17 yards on the first play but the drive stalled when the Pipers could not overcome a 15-yard penalty. The Pipers punted to the Clyde 12 and two plays later the Pipers recovered a fumble on the Bulldog 19.

McAfee picked up two yards, Quarterback Milton Jones was stopped for no gain and Johnny added five yards. Facing fourth and three, Johnny ripped off eight yards to the Bulldog four. McAfee hit the line for two, Johnny one and then McAfee made it into the end zone for the

score. Johnny's try for two points was short.

The Pipers forced the Bulldogs to punt following the kickoff and then moved the ball 40 yards in six plays before losing it on a fumble. The two teams exchanged punts for most of the rest of the first half with Clyde putting together a strong drive near the end of the half. They moved the ball from their own 44 to the Hamlin 31 before drawing two 15-yard penalties and then losing the ball on the final play with Halfback Bill Cork intercepting a Ruben Ramos pass as the half ended.

The two teams exchanged punts again to open the second half, with Clyde ending up with the ball on the Hamlin 45. They drove to the Hamlin 19 before giving up the ball on downs. Hamlin drew a penalty and found themselves afcng a

first and 20 situation from their own nine. Moving out to the 20, the Pipers lost their second fumble with Clyde taking over on the 15.

Barr moved the ball to the Hamlin 10 and then Hamlin drew a half the distance to the goal penalty that put the ball on the five. With a Clyde first down on the five, the Pipers drew another half the distance penalty to put the ball on the two. It took Barr two plays to score. The kick for the point after was blocked by the Pipers and the score was now tied, 6-6.

Again the two teams exchanged punts, with Hamlin taking over on their own 33. A pass from Quarterback Willie Hooper to Tight End George Titus was good for a first down on the Clyde 36. The Pipers added another first down at the Bulldog 22, but then lost the ball on a fumble on the 20.

The Bulldogs moved to the Hamlin 39 before losing the ball on downs.

With 90 seconds left on the clock, Hooper's pass was intercepted at the Hamlin 35. Two plays later the Pipers had the ball again after recovering a Bulldog fumble. Hooper's pass was again intercepted and Ricky Loper returned this one to the Hamlin 10 as the game ended.

Hamlin High Happenings

Piper Patter

by Velanne Rowland
Terri Casey
Piper Willis

Wow! Everything is still spinning from last week. There was so much spirit in the halls all week that you could actually feel it. I guess everyone knew that the guys were really ready for the game and they sure were, weren't they?

I noticed that the football boys even yelled during the competition yells during the pep rally.

The seniors won the competition yells and Frank Willis, Senior Class president, accepted the Sparkplug.

Everyone seemed a lot more at ease during the second pep really and the students really showed their spirit!!! The cheerleaders presented each member of the varsity with a bubble pipe and reminded "Pipe your Way To Victory." The boys were so enthused that they "piped" all day, not to mention getting their pipes taken up in a few classes. Also, thanks to the band, the faculty, the students, and the public for attending the pep rally.

HHS

Were you at the game? Well, if not, you really missed a fine showing by the Pied Pipers. The guys were great!! They were a little disappointed, but since Clyde was picked to win 21-6 I'd say we sure showed em who's boss.

Also, the crowd was great!! It's so neat to look up in the stands and see you all there. I'm sure it helps the guys to know how interested everyone is in them, too. And it's not just the parents either, many of the Hamlin spectators haven't had kids in school for years. It's great that they still come and we really appreciate it.

HHS

Student council elections are always a big event at school and they were held last week. The officers are Frank Willis, president; Rickey Gruben, vice president; Terri Casey, secretary; Velanne Rowland, treasurer and Piper Willis, reporter.

Members are Debbie Woolf, Alan Walker and Kenneth Payne, seniors; Danny Hix, Frank Shearer, Dana Wright, Diane Ford, juniors; Ray Sonnenburg, Randy Elmore, Cheryl Lewis and Rita Casey, sophomores; Alan Steele, Larry Griffin and Patrice Moore, freshmen.

The first meeting is Monday at 7 p.m.

HHS

The 1973 Piper Annual Staff is finally complete. Twelve of the seventeen members are going

First-Year FFA Members Visit W-Texas Fair

Thirty-two first-year student of vocational agriculture in Hamlin High School made their educational trip to the West Texas Fair in Abilene last week. The students took in various livestock and crop exhibits and observed other agricultural exhibits.

Those attending were Rickey Bond, Danny Brown, Billy Burleson, James Butler, Gary Ford, Mark Fowler, Martin Garcia, Allen Green, Larry Griffin, Steve Hastings, Johnny Hazzard, Randy Hudgins, Raymond Jordan, Johnny Lee, Lorenzo Lee, Richard Lee, Russell May, Garry Don Mayes, Connie McIlwain, David Morales, Donnie Nelson, Mike Norris, Robert Phariss, Mario Rangel, Fred Romero, Juan Romero, Tracy Rowland, Alan Steele, Julio Villanueva, Steve Williams and Daniel Willis.

Square Dance Lessons Set

The Anson Square Dance Club is sponsoring Square dance lessons every Wednesday at 8:15 p. m. at Pioneer Hall, Anson.

Sleepy Brown of Jayton is instructor. The public is invited. Lessons started Wednesday, Sept. 20.

James C. Mayes Sr. is scheduled to have back surgery today (Thursday) in Hendrick Memorial Hospital in Abilene.

Sloan, Debra Hollis and Debi Cary, assistant layout editors; Frank Shearer, Keith Jackson, Steve Evans, Mike Herd and Larry Don Jayroe, photography.

HHS

FFA did it's share at the West Texas Fair again. George and Carlos Gonzales won 4th and seventh place in the Cross Bred Barrows division. Also, the VA I class visited the fair Tuesday to inspect the livestock and, as we've heard, win a few teddy bears.

HHS

The National Honor Society has begun flag raising ceremonies every Monday morning.

HHS

Since this is an election year

Mrs. Codington's civics class has organized two major parties; young republicans and young democrats. Next week the class will hold presidential campaigns. This week they're holding a mock session of the House of Representatives with Ricky Gruben as Speaker of the

House.

HHS

Well, that's all, except that this weekend is an open date, so let's all rest up for the Colorado City game next week at C-City. And Back those Pipers!!!
